PREMIUM LINK

Premium Link is a jackpot system where EGT games from Collection, Premier and older series like Vega Vision+ and Vega Vision can be linked together in order to participate for common mystery and symbol-driven progressive jackpots.

The Premium Link is based on Premium Progressive Controller (PPC) and Media Control Center (MCC) which is used for visualization.

Premium Link supports mystery jackpot with up to 3 levels (Mini, Middle and Super) which are common for all games and denominations. Settings for each mystery jackpot level can be customized, including requirement for minimum bet. The mystery jackpot values are accumulated on the grounds of stakes made on all machines participating in the jackpots and can be won randomly by each of them.

Premium Link supports symbol-driven jackpots with maximum of 4 denominations each. Each jackpot have their own independent settings. The accumulation is performed on the grounds of stakes made during the games.

The current values of the mystery and symbol-driven jackpots are visualized on the upper screen of the gaming machines as well as on the jackpot panel. Whenever a jackpot is won, alluring animations shows to the player what amount he's been given.

Gaming machines of other manufacturers also can be linked in order to participate for common mystery jackpots. For this purpose in each gaming machine a special controller – Jackpot Interface Module (JIM) has to be installed. The won jackpots are transferred to the gaming machines as Legacy bonuses via SAS protocol.

CAI SHEN KINGDOM

Walk in the realm of the God of Wealth Cai Shen with EGT's new Chinese-themed 5-level progressive jackpot. Fat and cheerful, the deity is said to bestow the riches carried about by his attendants. The Cai Shen Kingdom progressive jackpot link gives the players a chance to get their hands on these riches by combining linked and stand-alone jackpot levels.

Beginning at two Mini and Minor non-progressive stand-alone levels, continuing with a Maxi stand-alone progressive level and reaching the journey in Cai Shen's Kingdom at the two Grand and Major progressive levels common for all gaming machines in the link, this jackpot is made to quench the players' thirst for wealth.

Housed in the already established P-24/32H Upright cabinet, Chinese-themed games are especially designed to accompany the Cai Shen Kingdom progressive jackpot link and feature a player-selectable multi-denomination. The player can win a few or even all of the jackpot levels with any bet. And to make the journey through Cai Shen's kingdom even funnier, besides the jackpot bonus, the games offer a Free Spins bonus.

富贵荣华

FÙ GUÌ RÓNG HUÁ

Fu Gui Rong Hua is a Chinese-themed 4-level progressive jackpot, inspired by the ancient eponymous charm said to bring glory, splendor, riches and prestige and this product of EGT grants them frequently to the players with the chance for them to hit more than one of its jackpot levels at a time.

The games especially designed for Fu Gui Rong Hua follow the same Chinese style and are of the "Reel 243 Ways Pay" type, where all reels are in play. The higher the bet, the higher the jackpot level that the players may hit. The maximum is only reachable when wagering at 88 credits, regardless of the bet multiplier. Betting higher also increases the pay table winnings.

The player could win one or more jackpot levels (depending on his/her bet) during the jackpot bonus game that could be activated whenever the Wild symbol appears on a single or multiple reels and the magic money tree shines and shakes. The bonus feature could be triggered either during the main or the free games.

Cat 4 cash

Cat 4 Cash is a four level progressive jackpot. Each of the Cat 4 Cash jackpot levels – Mini, Midi, Maxi and Mega can be won through the special Cat 4 Cash bonus game, which is triggered by special Cat 4 Cash symbols which appear both in the base game and free spins. The bonus can also be triggered randomly during base games or free spins. During the eight Cat 4 Cash free spins the player wins credits and collects special symbols “coin”. The player may win only one of the four jackpot levels. In order to win the jackpot level, the player needs to collect a certain amount of credits that exceeds the threshold for achieving the appropriate level of the jackpot and/or to collect 5 or more special symbols “coin”. The thresholds are displayed on the 32” top monitor during the bonus game. If the player collects 5 or more special symbols “coin”, he can upgrade to and win the next jackpot level together with a certain number of credits.

During the free spins the player wins credits and collects “coin”.

Cat 4 Cash themed progressive meters complement the games with the branded jackpot concept.

The player has a reasonable chance to win the highest jackpot level with any bet throughout the Cat 4 Cash bonus game. However, the higher the bet in the base game, the better the chance to win the highest Mega jackpot level. The player may win extra mystery winnings as credits during the base game or the Cat 4 Cash bonus.

Cat 4 Cash is available with 5 Reel 20- or 40-Line games with fixed maximum bet combined in two multigame mixes. Several variants of Cat 4 Cash pay tables and selection of denomination enable the customization of the bank of Cat 4 Cash gaming machines.

UNION-1 PREMIER

The **Premier Union-1** multigame is a unique mix of live, automated and virtual roulettes, video slots and Keno.

The software can be installed both on single monitor gaming machines (e.g. **STORK** and **Premier Roulette**) and dual monitor cabinets.

Another advantage of **Premier Union-1** is that the player has the opportunity to connect to up to three roulette wheels (live, automated and virtual), play the various mix of fruit, classic, multiline, extraline slot games and Keno on one and the same cabinet.

This is how this multigame turns into a preferable solution of EGT, meeting the different requirements and preferences of the customers.

Our Product

EGT Multigame Server (MGS) system is a technology solution that provides online operators with a direct connection with EGT's most popular online casino-gaming content. All slot and card games support the exciting Jackpot Cards feature, both on computer and handheld devices.

Integration

The connection between EGT MGS system and the casino operators is established through one-time integration via web services API. It allows access to all current and upcoming EGT games and features.

Transaction congruence and security

The EGT MGS system monitors the operation process and guarantees:

- Reliable and transparent transaction logging
- Accurate and fail-safe calculation of all bets and winnings
- Synchronisation of all relevant game and transaction data with the gaming platform

All the activities are stored in a dedicated database. In order to guarantee zero loss of information, all successfully concluded events, operations and transactions are redundantly archived, in near real-time.

JACKPOT CARDS

Multi-level jackpot system with four levels of mystery jackpot

Jackpot Cards is a four-level mystery jackpot, featuring a bonus game. Each mystery jackpot level is illustrated by a card suit: CLUBS, DIAMONDS, HEARTS and SPADES.

The Jackpot Cards mystery bonus is randomly triggered after a single game is finished and all resulting winnings are collected.

The triggering of Jackpot Cards automatically guarantees to the player one of the mystery jackpot levels.

Once triggered, the player is presented a short animation and is taken to the Jackpot Cards bonus game where a pick field made up of 12 cards face-down is displayed. The player selects cards until the revelation of 3 matching card suit symbols. The Jackpot Cards level corresponding to the revealed suit is awarded. The bonus amount equals the amount accumulated at the moment of revealing the last matching symbol.

The amount won in the Jackpot Cards round is directly added to the player's current balance and cannot be taken to the Gamble round.

The player has a reasonable chance to win the highest level of the bonus game with any of the qualifying bets, every time he enters the Jackpot Cards bonus. However, the higher the qualifying bet in the base game, the higher the chance to enter the bonus and win any one of the mystery jackpot levels!
